## **University System of Maryland Inter-Institutional Registration (IIR) Procedures**

For the enrichment of students attending University System of Maryland (USM) Institutions, opportunities exist for students to augment their programs by taking courses for credit at other USM institutions (see Board of Regents' Policy on Student Concurrent Inter-Institutional Registration, BOR III-2.40; III-2.41). These are the related procedures:

### **I. Procedures: Home Institution**

- A. The student obtains the inter-institutional registration (IIR) application from the coordinator, program director, or registrar at the home institution and secures the appropriate approval(s) at the home institution according to institutional policies.
- B. The home institution will register the student for a generic course such as REGI 100-600. This assures that the student is "officially registered" at the home institution and facilitates identifying students participating in IIR.
- C. The registrar of the home institution coordinates with the registrar of the host institution to determine if the student will be able to register at the host institution; if no space is available in the host institution course, the host institution registrar informs the student and the home institution registrar.
- D. An undergraduate student will pay tuition and fees for courses taken through IIR to the home institution, unless otherwise indicated (e.g., some graduate/professional and self-supporting programs). If there are institution-associated fees linked to the course at the host institution, they are the responsibility of the student.
- E. Upon completion of the course, the host institution's registrar will forward a grade report or an official transcript to the home institution reflecting the grades earned in the courses taken there.
- F. Upon official notification, the home institution's registrar will post the grade(s) according to institutional policy so that they are calculated in the student's academic totals.
- G. In addition to posting the grades, the home institution will make a notation on the student's record indicating the courses were taken as part of an inter-institutional registration and indicate the name of the institution. This information should appear with the semester in which the courses were taken.
- H. Students participating in IIR courses will be advised that they are expected to follow the change of schedule deadlines and pertinent academic policies in effect at the **host** institution for those courses in which they are registered. Failure to comply with a host institution's deadlines/policies may result in failing grades or other academic actions, which will need to be resolved between the student and the host institution.

### **II. Procedures: Host Institution**

- A. Upon receipt of the IIR application, the host institution's Registrar or designee will provide direction to the student as to how to request approvals at the host institution. Once approvals are secured, the registrar or designee will register the student at a time appropriate to the student's classification, according to institutional policies. The host institution notifies students if they are registered or not.
- B. Incoming students will be classified as inter-institutional registrants to eliminate them from head counts and to alleviate any problems with billing.
- C. Special permits, parking, or other fees at the host institution are the responsibility of the student electing to participate in the program.
- D. Students wishing to participate in IIR will be accommodated on a course available basis. Students are expected to have met the prerequisites or other criteria set for screened or restricted programs of study.

### **III. Procedures: Special Circumstances**

- A. At the student's request, disability accommodations will be facilitated through communication between the disability services offices of the home and host institutions. It should be noted, however, that some services available at the home institution may not be available at the host institution.
