The Office of Accessibility and Disability Services (ADS) works collaboratively with other university partners to provide approved accommodations for students with disabilities to allow for full inclusion in the residential community. Once ADS approves a housing accommodation, Housing and Residence Life determines the student's room assignment while considering both the approved accommodation and available space. Requests for residential accommodations must be based on a documented disability and not a preferred building, room or roommate. The request must be supported by disability documentation that illustrates clear and substantial barriers to being placed in a standard housing assignment.

This form must be completed by a licensed healthcare provider within the field of specialty pertaining to the disability and cannot be completed by a family member or relative.

**Important notes:**

- On-campus housing is community-based housing and there are NO completely private spaces.
- Students are NOT required to live on campus at Towson University.
