

**APPLIED INFORMATION TECHNOLOGY
TOWSON UNIVERSITY**

AIT 715: Case Studies in Internet Applications

Credit Hours: 3

Prerequisite: AIT 616 and AIT 618

Course Description: Real-world project dealing with the development of information systems for Internet applications; emphasis on distributed information systems for web deployment.

Learning Objectives:

1. Ability to design and implement web-based application systems
2. Understand the issues involved in developing information systems for Internet applications and e-commerce
3. Understand the security issues concerning web-based information systems

Bibliography:

This is a project-based course and would require no specific textbook. Books and reading materials used for AIT 616 and AIT 618 will be the primary reference for this course.
