Preview Your Website as a Mobile Website

Using Google Chrome to View Your Website as it Would Appear on a Mobile Device

To test your websites functionality on mobile devices try using Google Chrome's mobile preview within the browser's built in developer tools. Simply do the following:

1. Click "Customize and Control Google Chrome" in the upper right corner of the browser

2. Select "More Tools"

3. Select "Developer Tools"

| iviap | 5 | QUICK LI | Zoom | - 1 | 00% + | 53 |
|--------|-----------------------------------|----------------|-----------------------|--------------|-------|------------------|
| & COMM | UNITY | Search 7 | Print Cast Find | | | Ctrl+P Ctrl+F |
| | Save page as | Ctrl+S | More tools | | | Þ |
| | Add to desktop | | Edit | Cut | Сору | Paste |
| | Clear browsing data Extensions | Ctrl+Shift+Del | Settings Help | • | | |
| 1 | Encoding | Shirt+Esc | Exit | Ctrl+Shift+Q | | |
| A DEC | Developer tools | Ctrl+Shift+I | | | | |

4. The left panel of your screen now shows options for viewing your webpage within different mobile environments. Click the drop down to view it on a selection of different mobile devices. NOTE: The top viewed mobile devices for our website are currently iPhone 6, iPhone 5, iPhone 6 Plus and an iPad.

5. To exit this view simply press the "X" in the left corner of the browser window
